## About the book

What's it like to prepare Christmas lunch with Mick Jagger? To go clubbing with The Who's crazy drummer Keith Moon? Or to deal with the WAGs in a band's entourage?

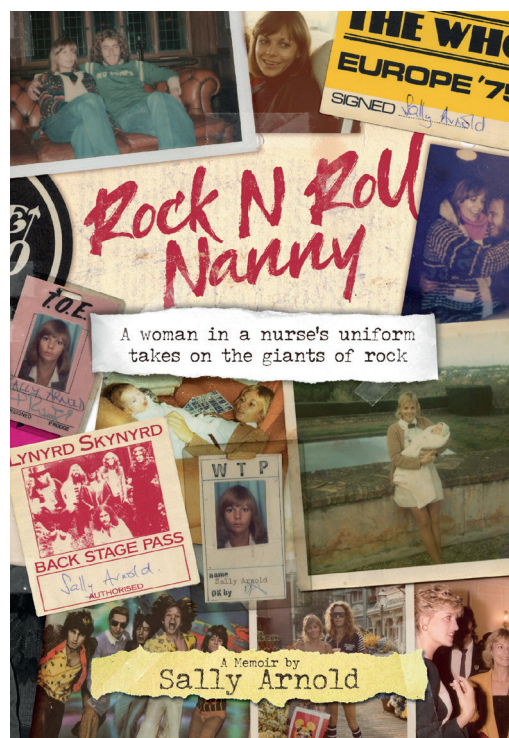

In 1971, Sally Arnold takes a nannying job in Paris that will transform her life. Her charge is Mick Jagger's daughter Jade and she is soon running more than bath-time... She is working for the giants of rock as the first woman tour manager in the business.

When Sally moves on to organising charity events, she has to manage other larger-than-life personalities such as Billy Connolly, Peter Cook and Rowan Atkinson. Sally also handles famous names from Princess Diana and the Duke of Edinburgh, to Mikhail Gorbachev and Poet Laureate Ted Hughes.

How did Sally survive in this world of rock and roll?
