About the book

The thirteenth century is a chaotic time of struggle for the mastery of France and England. A very young king on each throne. Precarious power for each one.

Isabella of Angoulême, the new wife of the powerful Hugh Lusignan, is as ambitious, proud and as wilful as ever. In England her son Henry III, looks longingly to the lands in France that his father lost. Can he reclaim them? Will his mother help him? Her plans and schemes never cease as she builds alliances to bring her new family power and territory.

The Tangled Queen Part 3 is the final story of her determination to claim her place in France at last, to be seen as a queen at all times. Who will stop her? Who can stop her? She will not be thwarted.

About the author

Since 1997 Erica Lainé has lived in south west France where she became interested in all sorts of historical research and writing as President of the Aquitaine Historical Society.
